Challenge Based Learning provides an efficient and effective framework for learning while solving real-world Challenges.

CBL expands the ownership of education and moves the learning experience beyond the four walls of the classroom.

CBL gives a purpose to design, code and make as these tools are used to solve real challenges that are connected to academic content.

CBL facilitates creative and divergent thinking and through a process that slows the process down allowing for full participation and reflection.

CBL prepares learners to make a difference now and in the future.

CBL provides learners with a framework for addressing challenges that can be used to learn and make decisions inside and outside of school.

CBL creates an authentic connection between the world of the learners, and the academic expectations of schools.

Challenges push us to go above and beyond by demanding action.

CBL provides the “why” for subject area content acquisition while building important life and career skills.

CBL expands the ownership of education and moves the learning experience beyond the four walls of the classroom.
